BURST: Run no: 2416, on 1/3/10, by Ah Bai at Charlie Stinky market.
Co-hares: Ah Chye the "take-care" man & Anchor Lim.
25 tigers and one guest, the ex-RAAF fighter-plane pilot, LBJ were there.

While the GM in China massaging the china dolls, TT Eou took the centre of the circle and announced next week's run and introduced the guest who was late.

On-Sex announced on the week-end Anniversary run by the FTAC, bus for long run leaves at 4pm and for medium run bus leaves at 4.30pm.

When the run started at 6.07pm, most of the front tigers followed the normal hash highway track, as they are always have brain on their legs, have to be called back to follow another way thru and between the houses until the last house at the edge of the foothill where the rocks and boulders are preventing the resident from conquering further into the hill-land.

For the tigers, it was really tough to cross over the boulders, but we managed slowly. The run continued skirting on the right side of the Hash-highway thru treacherous, virgin, bushy, thorny vines up and down terrain. We deadly tired before reaching the short summit. Then another treacherous on-down then up, round a big boulder and down again.

Finally over looking the Chinese temple. Here we were so tired, the paper lead towards hash h. way for the return home run, but some tigers including my self tempted by the sight of the temple decided to take the temple way followed by the road to the beer wagon.

Later I came to know that the paper was laid the same way we came back but without seeing any. IT was a very good virgin run which was under our nose and never experienced before, knowing very well and having not guts to

troden that area.

Shark came out first in 56 minutes followed by Rudru in 59 minutes.

There was a circle held by TT, icing Porky for coming-out late and landing at Hong Seng estate which was not the papered track.

Next on the ice was our ex-service-man, LBJ, who set one of our anniversary runs long before, from Air Itam dam to the Penang Hill and back in the dark. That's when I found out that there are some leeches surviving at one particular area along the way. So this is the only area on Penang Island where these leeches have a colony.

FTAC 10th Anniversary run on Saturday, 6/3/10 at Fisherman's wharf Restaurant.

It was a fantastic event worth more than RM50.- How was it possible?

These bunch of MCA guys have the spirit of teamwork and co-operation.

The souvenir program is so thick full of advertisements, that's where the money came for all the beers, the good food and the Entertainment.

Malaysian Joke

Three contractors are bidding to fix a broken fence at the Parliament House. One each from MIC, MCA and UMNO.

They go with a government official to examine the fence.

The MIC contractor takes out his measuring tape and did some measuring and did his calculation. He then gave his quotation as the material cost \$400, \$400 for his workers and \$100 for his profit. Total \$900.

The MCA contractor also did some measuring and figuring and then he gave his quote as for the material \$300, \$300 for his workers, and \$100 for his profit. Total \$700.

Guess how much did the UMNO contractor quoted? Answer next week
