**THE BURST:** Run no 2419 by White Lion, at Twin Towers, Leader Gardens. 22 tigers plus two guests: Marco, Drain-oil.

After the run General Soon and the Editor cum Publisher of Harrier magazine: Bimbo, were there to talk about their week-end two days walk from the end of the world to the beginning of the world on the Penang Island itself. 90 over participants mostly from KL are coming for the event organized by Gen. LC Soon.

Robert Kwok says: It has been a long time since we last had a White Lion's run, probably 10 years. Somehow he always got away when his turn came but not this time.

The run started at the end of the road. A short run and it was up the drain, a steep climb. Breathing down my neck was Kali, complaining, "not enough warm-up," It was a sad, distressing sight- the jungle was being cleared! Development is once again encroaching on our hash country already fast dwindling.

We soon turned left reached the pump house. Across the pond, we were on a long trail of well beaten path. Along the way we found foreign workers left their indelible mark with their abandoned tents in the jungle. We soon overtook the evergreen Uncle Ong, panting in never-say-die spirit.

At the top we went right down a valley and up another hill. Then we reached the waterfall which was almost dry after the recent dry spell. Gingerly we climbed up the slippery rock surface and all the way up to the last Hill. It was a long way up the last hill prompting the not-so-fit to pause for a breather, sweating profusely.

On down we discover it was a loop and we were back to the drain where we Started. The run was a short to medium, on a clear trail dotted with plenty of Paper and no checks. The general comment was "just nice". Thanks to White Lion
