2007/2008 COMMITTEE	Ah Lum managed to confuse everybody by announcing the run at Ivory tower and opposite USM. Arriving at the "opposite USM " site the only thing I found was a bunch of taxi's from some Batang Hashers they informed me that PH3 was at Ivory tower. It was still drizzling a bit at 6PM but earlier it had been raining heavily so then you can only hope that the hare stapled paper to the leaves..... Ah Lam was running around in his plain clothes with a big bag of hash paper and before the run started he run away saying no checks and of he went to put some more paper on the track!	2269 07/05/07 Lau Boon Hai Penang Hill railway station
Grandmaster Shark, h/p 012-407 5420	Dildo was a couple minutes late with the carts so the chaos was complete! Anyway the run was started and about 50 runners went towards the rifle range it's always fun to see runners going over a live rifle range all of a sudden they look like Carl Lewis. The shooters are probably more deadly on the road then with a gun but better be save then sorry there might be a Korean on the squat. The rain did a great job washing the paper away in good old Monday tradition the front runners just went up regardless of paper and hit the paper now and again on the path. The hare made a big effort	2270 14/05/07 Lim Peng Hong Gertak Sangul
